

Simply... the finest panel in the Post Frame Industry.

# Absolutely... Positively... The Best Panel In The Business!

## MESA's Incomparable Credentials:

- **New Profile** – The first, exciting new look in metal panels in decades! Dramatic design works well up close, extends to a pleasing appearance across an entire building.
- **Galvalume® Steel Substrate** – Perfect blend of zinc and aluminum for maximum corrosion resistance and long term performance. In fact, Galvalume is the only substrate warranted by the steel mill!
- **Kynar 500® Paint System** – Industry's best coating. Maximizes chalk and fade resistance. Keep that new building sparkle for much longer. Kynar 500 is the only paint system backed with a 40-year performance warranty by its manufacturer.

In the cookie-cutter world of metal panels, everyone has their version of the few, old tried-and-true panel profiles. Even slight variations have met with resistance. Now there is MESA, a panel that even the traditionalists can love.

MESA embraces the past and moves it into the future with a clean, exciting new look for an entire industry. MESA is the quality performance panel to take Post-Frame Construction to a whole new level.

***Naturally, it's from McElroy.***

## The Confidence of Quality

When the end user says the job has to be “right,” select MESA. There is no finer wall or roof panel in the industry. Customers entrust their building to you. Have the same confidence when you specify MESA from McElroy.

Simply ... it's the finest metal panel in the industry.

## Stylish Look to Any Project

Viewers of post-frame, residential, commercial or industrial, MESA is the new quality panel-of-choice for industry professionals.

Viewers of post-frame buildings complain that there is a “sameness” about them. The problem isn't the construction type. It's the cookie cutter look. Same old panels. Same old roof. Same old walls.

MESA means a fresh, new look to post-frame construction.

## MESA — the “Patent Pending” Means It's Exclusive

McElroy has patent-pending protection for MESA's unique profile design. Contractors can be assured when they offer their customers MESA panels, competitors will not undercut them with a cheap look-alike.

When you spec MESA, McElroy's got your back.

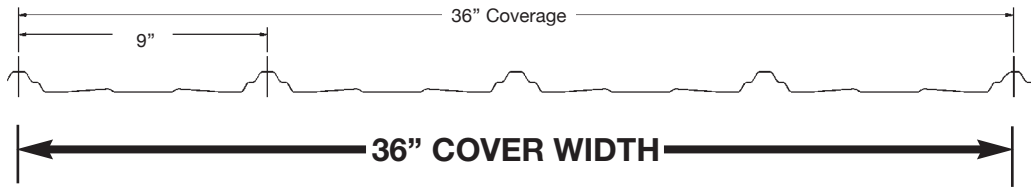

Almost invisible, Mesa's superior lap design hides raw edges, leaving a monolithic appearance.

**No Matter How You Look At It  
MESA LOOKS GREAT!**

**McElroy Metal**

## RECOMMENDED FASTENER LOCATION

At base, eave, ridge and lap: 1-1/2" on each side of major ribs. At intermediate supports: 1-1/2" on one side of major ribs. Standard spacing: 24" o.c. Maximum spacing 48" o.c. Stitch screw recommended every 20" maximum. Recommended location for nails: Through major ribs at support line.

\* Oil canning is a natural occurrence in metal panels and is not a cause for panel rejection.

### Metal Fasteners

**CORRECT**

Sealing material slightly visible at edge of metal washer. Assembly is weathertight.

**TOO LOOSE**

Sealing material not visible. Not enough compression to seal properly.

**TOO TIGHT**

Sealing material extruded beyond edge of washer.

### TRIM

MESA trim is produced on state-of-the-art computerized equipment. Like all McElroy products, trim is available in a wide assortment of attractive colors and durable finishes.

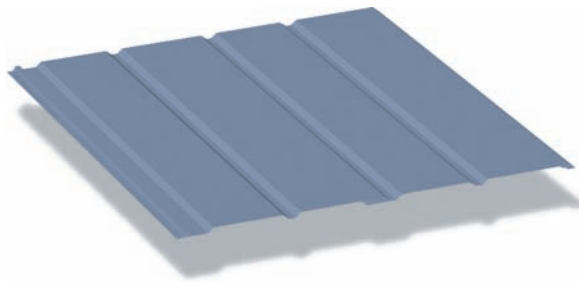

### WARRANTIES

McElroy Metal has developed a national reputation for high quality products and exceptional service. To reinforce the strength of this commitment, McElroy makes available limited warranties.

## ACCESSORIES – USE OUR ONE CALL ORDER SYSTEM

One call to your McElroy Representative will wrap up the entire steel portion of your project. Besides wall and roof panels, McElroy offers a complete selection of components and accessories to go along with your MESA panels. Your McElroy consultant can assist you in selecting trim, fasteners, translucent panels, closures, tape sealants, pop rivets, door track covers, etc.

### May We Recommend . . . .

If your building design includes soffit, McElroy's Matrix soffit panel is the perfect choice. Matrix adds an elegant touch to any commercial or residential project. Matrix is available in a choice of gauges and a wide variety of Kynar 500® colors.

In addition, McElroy offers a complete line of other metal wall and roof panels that can complement Mesa. Choose from popular standing seam systems to a variety of thru-fastened panels.
