

Materials Credits Documentation Sheet

LEED Green Building Rating System

This letter is to establish possible LEED credit qualifications for products manufactured by McElroy Metal.

Products: McElroy Metal Roofing, Siding and Substructural products

**Material & Resources Credit 4: Recycled Content**

**Credit 4.1 (1 point)** "Use materials with recycled content such that the sum of post-consumer recycled content plus one-half of the pre-consumer content constitutes at least 10% (based on cost) of the total value of the materials in the project."

**McElroy Metal roofing and siding panels exceed the minimum post-consumer recycled content combined with one-half of the pre-consumer content. Industry averages are as follows: Post consumer recycled content averages 25.5% and pre-consumer content averages 6.8%. Total recycled content averages 32.7%.**

**Credit 4.2 (1 point)** "Use materials with recycled content such that the sum of post-consumer recycled content plus one-half of the pre-consumer content constitutes an additional 10% beyond MR Credit 4.1 (total of 20%, based on cost) of the total value of the materials in the project."

**McElroy Metal roofing and siding panels exceed the minimum post-consumer recycled content combined with one-half of the pre-consumer content. Industry averages are as follows: Post consumer recycled content averages 25.5% and pre-consumer content averages 6.8%. Total recycled content averages 32.7%.**
