

Nostalgia Board & Batten

Our Nostalgia Board & Batten concealed fastener wall panel offers the time-honored look of wood siding without the hassle of ongoing maintenance.

This product also boasts a quick install time thanks to the pre-punched fastening flange.

From residential to light commercial, building owners and designers appreciate the unique aesthetic appearance, carefree maintenance, and increased resistance to fire, rot, and insects over its wooden predecessors.

The standard paint system for our Nostalgia Board & Batten panel is Kynar 500® (PVDF), the industry's best coating for long-term protection against panel chalk and fade.

Panel Specifics:

- Minimal maintenance compared to wood siding
- 12" Cover Width
- 24 Gauge Galvalume® Substrate
- Kynar 500® (PVDF) Paint System
- Wall panel application installs over solid deck
- Concealed fastener panel
- Pan Condition: Flat
