NOTES: Other combinations of gauges and colors may be in stock, available by special request. Please contact your McElroy Metal representative for more information. Coils are coated with Sherwin-Williams® Fluoropon® coil coating systems, containing PVDF Kynar 500®/Hylar 5000® resins. Some colors are also available in Silicone Modified Polyester coatings. Colors are representative of colors offered and are not intended for matching purposes. Before you place an order, please request an actual color sample from McElroy Metal.
