MEDALLION-LOK STRIATED*	
MEDALLION-LOK FLAT PAN	
MEDALLION-LOK DOUBLE PENCIL RIBS	
MEDALLION-LOK SINGLE PENCIL RIB	
*Recommended Pan Condition	12" Only

Medallion-Lok Load Tables and Section Properties

Load tables and section properties for Medallion-Lok can be found online at www.mcelroymetal.com. Please contact the **McElroy Engineering Department** at 1-800-950-9082 for additional information.

Notes:

- Standard Medallion-Lok panel features a Galvalume Substrate with Kynar 500® (PVDF) coating. Standard gauge for panel and trim is 24 gauge. Other gauges and aluminium are available upon request.
- Minimum length is 3' 9" or 4' 0", depending on production facility. Maximum standard length is 50'. Longer lengths available upon request.
- Additional fees may apply for panel lengths under 4' and over 50'.
- Medallion-Lok can be factory notched on the eave end of the panel. This is available for a left to right or a right to left roof condition.
- Oil canning is inherent in all metal panels and is not cause for panel rejection. A signed pan waiver will be required for all Medallion-Lok orders prior to production.
- Available pan conditions include: Double Pencil Ribs, Striations or Flat Pan. Striated panels are recommended as they reduce the appearance of oil canning.
- Contact a McElroy Representative for specific pricing, lead times and special colors or gauges that may not be on a McElroy Metal color chart.
- Contents in this manual are subject to change without notice. To confirm this book is the most current copy, please visit McElroy's website at www.mcelroymetal.com.
